SPECIFICATIONS

Section 12-48-16 Entrance Floor Grilles

Furnish and install SSS Clean Tread™ Model KD58 Stainless Steel Grating as manufactured by KADEE Industries in Twinsburg, Ohio.
Phone: (800) 321-3827

Construction:

- **Tread Material:** Manufactured from type 304 stainless steel .071" x .177" surface wires spaced with a .125" slot opening and resistance welded to .070" x 0.5" type 304 stainless steel support rods spaced 1" on center.
- **Construction:** Each juncture of surface wires to support rods shall have electric resistance welded joints. Hidden or visual locking devices are provided to fasten grating.
- **Framing:** 6063-T6 Extruded aluminum or type 304 stainless steel. There are custom-made pit liners available in aluminum or stainless steel for drainage or evaporation applications.

2 Year Warranty

For full product warranty, please visit the website: <https://kadeeindustries.com/resources/>

MULTIPLE USES

DESIGNED TO MEET A
VARIETY OF NEEDS

- Designed for shallow, level bed recessed applications for new construction or renovation.
- Wires are evenly spaced providing safe support for wheelchairs, crutches, canes and other walking aids.
- Custom designs available to fit almost any application.
- 59.9% airflow, great for registers.
- Self-cleaning design reduces maintenance costs.
- Slip resistant with a minimum coefficient of friction of 0.6 in dry and wet testing.
- Rolling load capacity - 1,000 pounds per wheel.

MODEL KD38

3/8" Stainless Steel Grating

KD38 is similar to the model KD58, but at 3/8" thickness. It is an excellent alternative to aluminum or vinyl entrance mats, with a much longer life and lower maintenance. KD38 was designed as the ideal replacement or upgrade to standard worn out roll-out mats.

LEED INFORMATION

Environmental concerns are an important consideration to specifiers making material selections for products. Stainless steel's long service life and 100% recyclability make it an excellent environmental performer. KADEE Industries' SSS Clean Tread stainless steel grating is manufactured from stainless steel comprised of 80% post consumer recycled content and 15% pre-consumer recycled content.
